Conventions in Münster

Successful since 1648
Welcome to the City of Science and Savoir Vivre!

Are you thinking about organising a convention or a conference? How splendid – Münster is at your service: we love conferences! Not just because of the historical tradition of our city, where a peace conference did after all end the Thirty Years’ War. Münster today, as a city of science and savoir vivre, still offers a wonderful setting for your event.

The city. The Hanseatic city with a great history, the scientific city with a young pulse, the modern service provision city with 300,000 inhabitants – a location with charisma, for being heard and seen, nationally and internationally. But at the same time it is not so big that your convention will be drowned out in the background noise of a metropolis, but can instead be clearly perceived as an event.

The network. What use are the potentials and advantages of a city when you have to painstakingly seek out everything you need for your plans? This is why all Münster’s stakeholders – from the universities to the council and hotel industry to the service providers – have formed a strong network: the KONGRESSINITIATIVE MS. In this guide, we present to you this wide and varied range of services in a bundled form.

The service. All the threads of this well-practised network converge for you at one point – at the Conference Office of Münster Marketing. Here you can call upon concentrated conference planning expertise. Quite simple and uncomplicated: from the useful fast information to the tailor-made complete package – with all bonus points. After all, you have got enough to do to make sure that your convention is a success as regards its content. We will take care of the rest – if you want us to. And you can keep your head free for what is most important. Is that an offer? We look forward to your call!

Yours sincerely,

Bernadette Spinnen
Director of Münster Marketing

“Everybody wants to go to Münster” recently was the cover headline of a major German daily newspaper. That is a slight exaggeration. But it is a fact that Münster is among the major German cities for which the best prospects of growth continue to be forecast. A young city of education and science, a prospering business location – with a rich history, lively culture, beautiful cityscape and lots of green: splendid conditions for your convention, your guests will feel completely contented.
CONFERENCES AND CONVENTIONS IN MÜNSTER

Good News! The Little Ice Age is Over!

Actually, everything went excellently. 150 high-ranking delegations from all over Europe, hospitality in distinguished accommodations, an expectant public – optimal conditions for productive negotiations. Only there was the rain. And the brown bread. Fabio Chigi had his problems with those. And the papal envoy complained about these at the Westphalian Peace Conference in his poems.

Tempi passati
All of that was in the period from 1644 to 1648. The Roman legate’s two points of complaint can now be considered rectified. The amount of rain was due to the Little Ice Age – in Münster this is now substantially under the German average. And the brown bread – or Schwarzbrot – is no longer by any means the only signature feature of Münster’s exquisite cuisine (although the traditional "Pumpernickel" has a firm fan base all over the world).

What has remained
Münster as a location with Europe-wide pull. One can still have successful meetings here, as in the past. And nowadays, even Italians spoilt by sun and saltimbocca can feel at home in Münster. Whether national or international, whether it be an exclusive expert circle or media-effective large-scale event with up to 4,000 participants – even if you do not quite have a Thirty Years’ War to end, Münster offers the best opportunities for every kind of convention, seminar and conference. As a university and Hanseatic city, as a city of the Peace of Westphalia and as one of member cities of the Historic Highlights of Germany, Münster is among the most beautiful and tradition-rich conference sites in Germany.

The stage is ready for you
More than 70 hotels with more than 4,500 beds, a rich selection of smaller or larger, but also very unusual venues, a perfect and made-to-measure conference service – that is all embedded in the life and culture of a modern major city, with more than 300,000 inhabitants, a city of science and savoir vivre that will also enchant your meeting attendees beyond the official programme. Welcome!
This fits in with the traditions of the convention city of Münster: in order to guarantee their guest the most comfortable and successful events possible, all of those involved have joined together to form the KONGRESSINITIATIVE MS, a strong network in which all important areas work together actively: service provision, business, science, local authorities, hotels and catering.

**Successful together**
The short channels within the network allow fast access to information – and for you as guests, direct line to the right contact persons, arranged via the Conference Office. Our networks’ work is focused upon optimising services and opening up new markets. Particular attention is paid to the intensive cooperation with all nine colleges and universities in the city, the researchers and teaching staff of which are frequently among the initiators and organisers of conferences.

The KONGRESSINITIATIVE MS is a member in the following associations:

- **German Convention Bureau**: The German Convention Bureau is the central contact for all customers planning events in Germany.
- **„Business” Competence Network**: This is one of the five thematic networks set up by Tourismus NRW e.V. for the implementation of the North-Rhine Westphalia tourism master plan.
The awards as „Most Liveable City“, as a „Bicycle city“ or as a „Climate Capital“ prove that a healthy, aware, and sustainable lifestyle is not just one of Münster’s guiding principles on paper, but can also be experienced in everyday city life. As our guest, we would also like you to benefit from the advantages and experiences of our “Green City”.

Keeping conferences green is a major priority in Münster! Is it important to you that you organise your convention as sustainably as possible? Would you like to optimise your conference processes as regards the aspects of e.g. climate protection or saving resources? The Conference Office will be happy to assist you in your planning with bundled know-how – in a very uncomplicated way. The Conference Office is committed in different ways, in cooperation with the Office for Green Spaces and Environmental Protection. We keep ready a wide and varied range of suggestions as to how you can arrange your event to be climate-friendly – ranging from questions of mobility to resource consumption and green IT to projects of compensatory climate protection.

Climate-friendly events
One important key indicator is the CO₂ emission of a convention. A convention is climate-friendly if the calculated CO₂ emission is substantially reduced, e.g. by using the „Welcome! Ticket Münster“ or the use of recycling paper with the „Blue Angel“. The journey to and from the location is also an important factor of course. This is a matter of persuading your convention attendees to do without arriving and leaving by car or aeroplane (guests that arrive by aeroplane can compensate for the CO₂ emission with most airlines). One of the convincing solutions for this is e.g. the event ticket of Deutsche Bahn.

Events are also climate-neutral, or CO₂-“neutral”, if the CO₂ emission is kept neutral and completely compensated for by a climate-protection project. The aim is to keep down the CO₂ emissions caused by an event and thus cause as little environmental pollution as possible.
Münster's Seals of Quality and Certificates

Various environmental and sustainability certificates make it possible for companies, event organisers, and consumers to deal with natural resources in a good, environmentally friendly way, and take Corporate Social Responsibility into account. We have listed a selection of certificates with which our sponsors and partners of the Kongressinitiative cooperate.

Green Globe
Green Globe is an international certificate. The Green Globe Certification Standard evaluates performance in the field of sustainability, based upon the three columns: environmental friendliness, social responsibility, and economic viability.

Ökoprofit
ÖKOPROFIT – or the Ökologische Projekt Für Integratierte Umwelt-Technik (Ecologic project for integrated environmental engineering) – is a cooperation project between Münster and the local economy. Its goal is to reduce operating costs through the implementation of environment and climate protection measures.
www.muenster.de/stadt/umwelt/oekoprofit.html

Ensured Sustainability (Gesicherte Nachhaltigkeit)
The seal for „Ensured Sustainability“, granted by “Deutsche priv. Institut für Nachhaltigkeit und Ökonomie“ (German Institute for Sustainability and Economy), stands for the rational combination of protection of the environment, economics, and social responsibility.

Organic Certification (Bio-Siegel)
The Bio-Siegel proves that all EU legal regulations for organic farming have been adhered to. They stipulate, among other things, that all ingredients must be of agricultural origin from organic farming.

Climate-neutral Company with First Climate
The provider First Climate offers the possibility of compensating for unavoidable emissions of greenhouse gases by means of different climate protection projects.

Fair Trade Town
Since 2011, Münster has been part of the worldwide campaign Fairtrade Towns by the foundation TransFair e.V. This title is awarded to municipalities that advocate fair trade in a special way. The campaign aims at bringing together the different actors (commerce, administration, society) to show the joint fair trade within the city.
muenster.fairtrade-towns.de
In Münster, science, business, and the municipality all pull together. With the „Alliance for Science“, a strategic network with representatives from business, science, and the municipality, expertise is brought together and capabilities bundled in order to enhance Münster’s profile as a city of science and savoir vivre.

The Science Office forms the hub between the nine universities and colleges and the municipality. It organises the linking of the institutes, teaching staff, and the students with the citizens in Münster. Direct synergy effects arise for organisers of conventions and conferences, which in Münster come to a substantial extent from the field of science. Next door to each other, the Conference and Science Office ensure the important networking in an uncomplicated and direct way.

Are you looking for a venue for conventions, conferences, trade fairs, seminars or concerts? The University of Münster (WWU) has a large room supply that you can book.

Schloss (Residence)
Ten minutes by foot away from the city centre is the Prince-Bishop Castle of Münster. As a landmark and the main building of the university, this impressive building houses the ceremonial auditorium (390 seats) as well as several lecture halls and seminar rooms. The foyer is suitable for receptions. The gorgeous Botanischer Garten (Botanical Garden) invites you to relax and the nearby Café Schlossgarten Münster offers catering service. The courtyard of the castle can also be used.

Lecture Hall Building at Schlossplatz
Opposite the castle (approx. 300 m) four lecture halls with the latest technology are at your disposal. The biggest seats 800. You can also use the foyer as exhibition space. Visitors of the lecture hall building and of the castle will find sufficient parking options (subject to a charge) at Schlossplatz, which lies between the two venues.

Auditorium by the Lake Aa
The function room with approx. 650 seats and a stage is particularly suitable for concerts, theatrical performances and readings. The auditorium is in the direct proximity of the Aaee and numerous restaurants and hotels.
With its adaptable rooms equipped with modern technology, the University of Applied Sciences is an ideal place for further training events, conferences, and seminars. An extremely wide and varied range of rooms is available:

**Hüfferstiftung/Robert-Koch-Straße 30**
The venerable building with the red brick facade has – like the building at Robert-Koch-Straße 30 that the university moved into in 2011 – quick access to the Schloss (Residence), the city centre and the Lake Aa (max. 150 people).

**University Centre (FHZ)**
The FHZ was built in 1974 and is currently being thoroughly modernised. With its large foyer and the lecture halls it is ideal for events, exhibitions and receptions with a larger number of people (max. 200).

**Leonardo-Campus**
**Building No. 10 and No. 6**
With the historical brick building of a Prussian cavalry barracks (Leo 10) and the modern construction with steel and glass (Leo 6), the Leonardo Campus provides a charming mixture. Conferences with special flair (max. 190 people).

**Campus Steinfurt**
With its close concentration of buildings, the campus in Burgsteinfurt is similar to the complexes of American universities. The new lecture hall building, completed in 2013, is especially versatile with its sliding walls (max. 400 people).
Are you looking for a ballroom for your evening dress? A screen for your projector? A training room for your new personnel? A stage for your big band? An interested audience for your fair stand? Come to us. In the Stadthalle Hiltrup you will find versatile premises, modern technical equipment and qualified personnel, united under one roof.

The different rooms can be adapted for different uses and joined to each other. The equipment includes the latest convention technology and a lighting and sound system. The total exhibition area is 1,055 m².

There are excellent transport links to the Stadthalle Hiltrup: via the autobahn junction Münster-Süd (A 1/A 43), by rail (from Münster main railway station to Hiltrup railway station) and via the bus lines 1, 5 and 9 from Münster main railway station to the Schulzentrum Hiltrup stop. The hotel restaurant EAT is open to hotel guests and outside guests from early in the morning until late in the evening and serves fine variants of international cuisine. Spanish tapas and Mediterranean dishes are served in La Tapia. Finish off the day or get in the mood for the evening, meet old friends or get to know new people. Or: simply take your time and enjoy your drink – the bar and lounge TIDE is the ideal place for this.

How about a meeting in the elephant house of the Allwetterzoo Münster? Or in the Pferdemuseum (horse museum) there? Have you ever had a meeting in a former British garrison church? A medieval Westphalian estate is another alternative, of course. Or a cool club in an old factory hall? And that is by no means all of the ideas and suggestions. Find out for yourself, we will be happy to advise you!

Have a Great Evening at the Allwetterzoo Münster!  

“Experience animals close up” is the motto of the Allwetterzoo! And this also applies to you if you come to us to end your conference. We will be happy to guide you through the zoo in the evening, past lions, tigers and elephants. Listen to the fascinating noises and then, after the guided tour, enjoy a picnic or even a candlelight dinner with elephants, fish or the animals of Africa. Would you like to just stretch your legs in the zoo or just eat a snack? No problem, talk to us, we will be happy to advise you and put together an individual programme for you in our surroundings. Our tip: plan your accompanying programme or even your complete conference with us at the zoo. Experience our animals „up close”, e.g. if you feed elephants and parrots, accompany the penguins on their stroll or stand „eye to eye” with tigers, lions and gorillas.

HISTORICAL TOWN HALL

Münster's Landmark in the Heart of the City

The Historical Rathaus (Town Hall) at Prinzipalmarkt is from the middle of the 14th century and, with its high gable, has no equal in Germany. History has been written here. In 1648, the Spanish-Dutch Peace Treaty – part of the Peace of Westphalia – was confirmed in the Peace Hall. After being largely destroyed in the Second World War, the characteristic gabled building with its arches, was faithfully reconstructed in the 1950’s, financed above all by the donations in kind and money of merchants and citizens and through the town hall lotteries. The Rathaus (Town Hall) and the adjacent Stadtweinhaus (City Wine House) are now used for cultural and prestigious occasions and for official receptions. The meetings of the political councils also take place here. The largest room in the Town Hall – the ballroom – and the adjacent armoury can be provided with various types of seating. Furthermore, small meeting rooms are to be found in the Stadtweinhaus. These rooms have fixed block-formation seating.

After full refurbishment in 2014, the former Hiltruper railway station now gleams with new lustre. The listed building is not just popular for theatre, exhibitions and concerts. The high room with exposed stonework and a gallery also provides a great ambiance for smaller conferences and events.

Conference technology, such as a projector and projection screen, are installed. The Kulturbahnhof can be accessed by train (Münster – Hamm route) and bus. An independent restaurant could be found next to the Kulturbahnhof. Organisers are free to choose their catering suppliers.

The Friedenskapelle is one of the most renowned concert addresses in the city. In the elegant concert hall under golden chandeliers, you will find a versatile and rich concert programme.

The room has multiple functions and offers a unique ambiance for conferences and congresses. Conferences, in-house trade fairs, lectures, workshops – all this and more will find a charming backdrop in the Friedenskapelle. Good transport connections and ample (free) parking round off the services.

In the history of the Pulverturm, there have been several changes in the people running the establishment, all of whom have left their own mark. The first operator of the Pulverturm, according to the official documents, was called … can you guess? That’s right: Heinrich. The (secretive) name change to Klamm & Heinrich is therefore clearly a return to the strengths of the Pulverturm: Westphalian tavern culture, a relaxed pub-like atmosphere and a beautiful beer garden. In addition, the meeting room offers space for private or business events, with approx. 40 places. For bigger events, the beer garden and/or the guest rooms can also be rented.

Tavern 2.0: Since March 2018, the Alte Pulverturm has sailed under a new flag, as Klamm & Heinrich. The Pulverturm was opened in 1828 and is one of the oldest taverns in Münster. It is located directly on the promenade which borders the Altstadt and the Kreuzviertel districts of Münster.

<tr>
<td>The protection of nature, the environment and resources are an integral part of the concept of this zoo. The use of renewable energy sources is a high priority. The Allwetterzoo is thus the only zoo in Germany that has “energy passes” for animal houses and that has constructed an energy-efficiency house for its bull elephant.</td>
<td></td>
</tr>
<tr>
<td>All areas of procurement are governed by the criteria of sustainability. Where possible, recycling products, FSC and MSC products and regional products are used in the Allwetterzoo. This applies to the animal feed as well as to the catering.</td>
<td></td>
</tr>
<tr>
<td>The Allwetterzoo informs its visitors in many different ways about the subjects of nature, environmental and resource protection. There are informative exhibitions, an “energy trail”, information panels, guided tours and educational programmes.</td>
<td></td>
</tr>
<tr>
<td>Via its homepage and with a collection box in the entrance area, the Allwetterzoo asks its visitors to hand in old mobile phones. The revenues generated with the recycling are used for species protection.</td>
<td></td>
</tr>
<tr>
<td>Environmental and resource conservation also plays an important role in the Allwetterzoo’s species protection projects in Vietnam and Cambodia, e.g., through a reforestation project with the municipal utilities of Münster and the sustainable use of energy and water.</td>
