Conventions in Münster

Successful since 1648

Welcome to the City of Science and Savoir Vivre!

Bernadette Spinnen
Director of Münster Marketing

Are you thinking about organising a convention or a conference? How splendid – Münster is at your service: we love conferences! Not just because of the historical tradition of our city, where a peace conference did after all end the Thirty Years' War. Münster today, as a city of science and savoir vivre, still offers a wonderful setting for your event.

The city. The Hanseatic city with a great history, the scientific city with a young pulse, the modern service provision city with 300,000 inhabitants – a location with charisma, for being heard and seen, nationally and internationally. But at the same time it is not so big that your convention will be drowned out in the background noise of a metropolis, but can instead be clearly perceived as an event.

The network. What use are the potentials and advantages of a city when you have to painstakingly seek out everything you need for your plans? This is why all Münster's stakeholders – from the universities to the council and hotel industry to the service providers – have formed a strong network: the KONGRESSINITIATIVE MS. In this guide, we present to you this wide and varied range of services in a bundled form.

The service. All the threads of this well-practised network converge for you at one point – at the Conference Office of Münster Marketing. Here you can call upon concentrated conference planning expertise. Quite simple and uncomplicated: from the useful fast information to the tailor-made complete package – with all bonus points. After all, you have got enough to do to make sure that your convention is a success as regards its content. We will take care of the rest – if you want us to. And you can keep your head free for what is most important. Is that an offer? We look forward to your call!

Yours sincerely,

THE CONFERENCE OFFICE

Conference City Münster

“Everybody wants to go to Münster” recently was the cover headline of a major German daily newspaper. That is a slight exaggeration. But it is a fact that Münster is among the major German cities for which the best prospects of growth continue to be forecast. A young city of education and science, a prospering business location – with a rich history, lively culture, beautiful cityscape and lots of green: splendid conditions for your convention, your guests will feel completely contented.

CONFERENCES AND CONVENTIONS IN MÜNSTER

Good News! The Little Ice Age is Over!

Actually, everything went excellently. 150 high-ranking delegations from all over Europe, hospitality in distinguished accommodations, an expectant public – optimal conditions for productive negotiations. Only there was the rain. And the brown bread. Fabio Chigi had his problems with those. And the papal envoy complained about these at the Westphalian Peace Conference in his poems.

Tempi passati

All of that was in the period from 1644 to 1648. The Roman legate's two points of complaint can now be considered rectified. The amount of rain was due to the Little Ice Age – in Münster this is now substantially under the German average. And the brown bread – or Schwarzbrot – is no longer by any means the only signature feature of Münster's exquisite cuisine (although the traditional "Pumpernickel" has a firm fan base all over the world).

What has remained

Münster as a location with Europe-wide pull. One can still have successful meetings here, as in the past. And nowadays, even

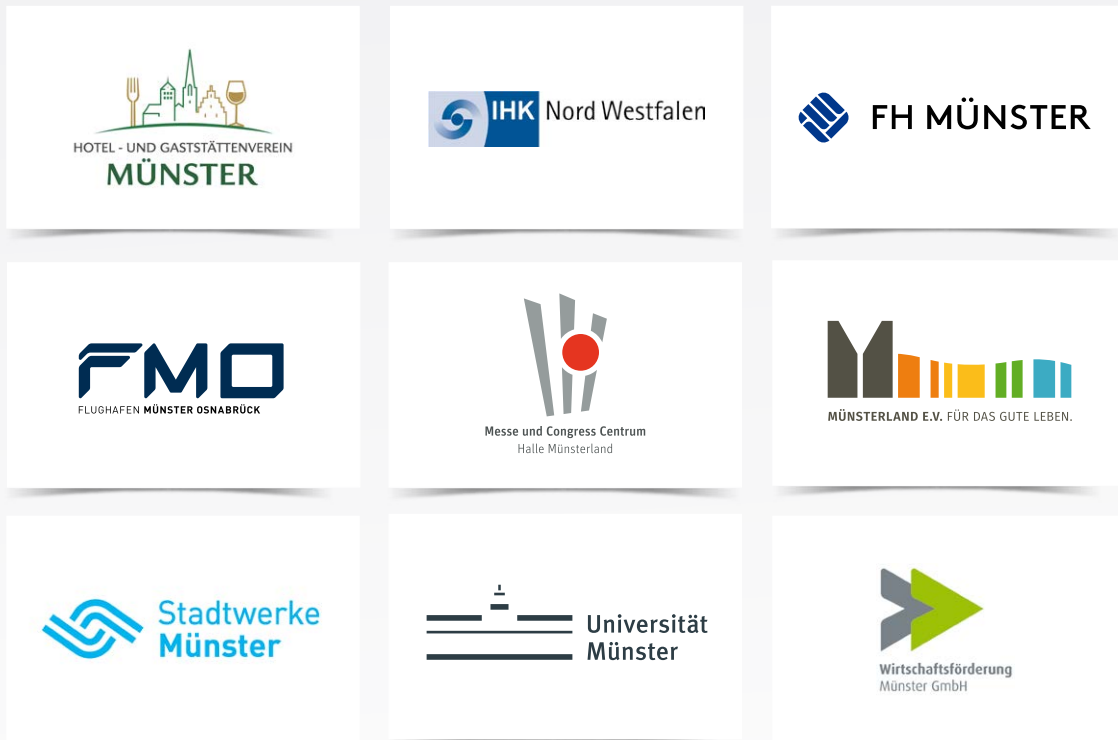

Italians spoilt by sun and saltimbocca can feel at home in Münster. Whether national or international, whether it be an exclusive expert circle or media-effective large-scale event with up to 4,000 participants – even if you do not quite have a Thirty Years' War to end, Münster offers the best opportunities for every kind of convention, seminar and conference. As a university and Hanseatic city, as a city of the Peace of Westphalia and as one of member cities of the Historic Highlights of Germany, Münster is among the most beautiful and tradition-rich conference sites in Germany.

The stage is ready for you

More than 60 hotels with more than 6,500 beds, a rich selection of smaller or larger, but also very unusual venues, a perfect and made-to-measure conference service – that is all embedded in the life and culture of a modern major city, with more than 300,000 inhabitants, a city of science and savoir vivre that will also enchant your meeting attendees beyond the official programme. Welcome!

KONGRESSINITIATIVE^{MS}

A PROJECT OF MÜNSTER MARKETING

KONGRESSINITIATIVE^{MS}

A Strong Network

This fits in with the traditions of the convention city of Münster: in order to guarantee their guest the most comfortable and successful events possible, all of those involved have joined together to form the KONGRESSINITIATIVE^{MS}, a strong network in which all important areas work together actively: service provision, business, science, local authorities, hotels and catering.

Successful together

The short channels within the network allow fast access to information – and for you as guests, direct line to the right contact persons, arranged via the Conference Office. Our networks' work is focused upon optimising services and opening up new markets. Particular attention is paid to the intensive cooperation with all nine colleges and universities in the city, the researchers and teaching staff of which are frequently among the initiators and organisers of conferences.

The KONGRESSINITIATIVE^{MS} is a member in the following associations:

- **German Convention Bureau:** The German Convention Bureau is the central contact for all customers planning events in Germany.
- **"Business" Competence Network:** This is one of the five thematic networks set up by Tourismus NRW e.V. for the implementation of the North-Rhine Westphalia tourism master plan.

HAVE A GREEN CONFERENCE IN MÜNSTER

Healthy, Sensible, and Sustainable

The awards as “Most Liveable City”, as a “Bicycle city” or as a “Climate Capital” prove that a healthy, aware, and sustainable lifestyle is not just one of Münster’s guiding principles on paper, but can also be experienced in everyday city life. As our guest, we would also like you to benefit from the advantages and experiences of our “Green City”.

Keeping conferences green is a major priority in Münster!

Is it important to you that you organise your convention as sustainably as possible? Would you like to optimise your conference processes as regards the aspects of e.g. climate protection or saving resources? The Conference Office will be happy to assist you in your planning with bundled know-how – in a very uncomplicated way. The Conference Office is committed in different ways, in cooperation with the Office for Green Spaces and Environmental Protection. We keep ready a wide and varied range of suggestions as to how you can arrange your event to be climate-friendly – ranging from questions of mobility to resource consumption and green IT to projects of compensatory climate protection.

Climate-friendly events

One important key indicator is the CO₂ emission of a convention. A convention is climate-friendly if the calculated CO₂ emission is substantially reduced, e.g. by using the “Welcome! Ticket Münster” or the use of recycling paper with the “Blue Angel”. The journey to and from the location is also an important factor of course. This is a matter of persuading your convention attendees to do without arriving and leaving by car or aeroplane (guests that arrive by aeroplane can compensate for the CO₂ emission with most airlines). One of the convincing solutions for this is e.g. the event ticket of Deutsche Bahn.

Events are also climate-neutral, or CO₂-“neutral”, if the CO₂ emission is kept neutral and completely compensated for by a climate-protection project. The aim is to keep down the CO₂ emissions caused by an event and thus cause as little environmental pollution as possible.

Münster's Seals of Quality and Certificates

Various environmental and sustainability certificates make it possible for companies, event organisers, and consumers to deal with natural resources in a good, environmentally friendly way, and take Corporate Social Responsibility into account. We have listed a selection of certificates with which our sponsors and partners of the Kongressinitiative^{MS} cooperate.

Green Sign

In Germany, GreenSign is the market leader as a sustainability certification for hotels. However, it has also established itself internationally with now over 270 certified hotels in 15 countries. Only GreenSign includes the carbon footprint for hotels in addition to the certification.

www.greensign.de

Green Globe

Green Globe is an international certificate. The Green Globe Certification Standard evaluates performance in the field of sustainability, based upon the three columns: environmental friendliness, social responsibility, and economic viability.

www.greenglobe.com

Ökoprofit

ÖKOPROFIT – or the Ökologische Projekt Für Integrierte Umwelt-Technik (Ecologic project for integrated environmental engineering) – is a cooperation project between Münster and the local economy. Its goal is to reduce operating costs through the implementation of environment and climate protection measures.

www.muenster.de/stadt/umwelt/oekoprofit.html

Ensured Sustainability (Gesicherte Nachhaltigkeit)

The seal for “Ensured Sustainability”, granted by “Deutsche priv. Institut für Nachhaltigkeit und Ökonomie” (German Institute for Sustainability and Economy), stands for the rational combination of protection of the environment, economics, and social responsibility.

www.di-no.eu/en/

Organic Certification (Bio-Siegel)

The Bio-Siegel proves that all EU legal regulations for organic farming have been adhered to. They stipulate, among other things, that all ingredients must be of agricultural origin from organic farming.

Climate-neutral Company with First Climate

The provider First Climate offers the possibility of compensating for unavoidable emissions of greenhouse gases by means of different climate protection projects.

Fair Trade Town

Since 2011, Münster has been part of the worldwide campaign Fairtrade Towns by the foundation TransFair e.V. This title is awarded to municipalities that advocate fair trade in a special way. The campaign aims at bringing together the different actors (commerce, administration, society) to show the joint fair trade within the city.

UNIVERSITY OF APPLIED SCIENCES, MÜNSTER

Your Capable Host

With its various locations, Münster University of Applied Sciences is an ideal place for further education, seminars or congresses. Private parties also find the perfect setting here.

Leonardo Campus Buildings No. 10 and No. 6

The Leonardo Campus offers a charming blend of the historic and the modern: red brick buildings of the Prussian cavalry barracks (Leo 10) and simple, elegant architecture in the spirit of the 21st century (Leo 6). Meetings with a special flair.

Hüfferstiftung

The time-honoured building with the red brick facade is the "face" of Münster University of Applied Sciences. It is centrally located to the castle, the city

centre and the Aasee. Another campus building with variable rooms is currently being built on the grounds of the Hüfferstiftung.

University of Applied Sciences Centre

The Fachhochschul-Zentrum (FHZ) was built in 1974 and is a typical representative of the architecture of that time. It has recently been thoroughly modernised. Due to its size, the FHZ offers the most extensive range of rooms.

Steinfurt Campus

With its closely spaced buildings, the campus in Burgsteinfurt is comparable to the facilities of American universities. The new lecture hall building, completed in 2013, is particularly flexible thanks to its mobile walls.

FACTORY HOTEL MÜNSTER

Listed and Modern

Industrial elements and homely comfort, close to the city centre and in a peaceful location – the Factory Hotel unites opposites in a unique concept. The listed main building of the former Germania brewery and a lake form the heart of the district, which is equally a meeting place for hotel guests and for the people of Münster, with restaurants, clubs and much more.

In the Factory Hotel, every kind of event becomes a success. A total of nine rooms are available for conferences, conventions, family celebrations, weddings, and other events. Two restaurants ensure that connoisseurs get their money's worth.

The hotel restaurant EAT is open to hotel guests and outside guests from early in the morning until late in the evening and

serves fine variants of international cuisine. Spanish tapas and Mediterranean dishes are served in La Tapia. Finish off the day or get in the mood for the evening, meet old friends or get to know new people. Or: simply take your time and enjoy your drink – the bar and lounge TIDE is the ideal place for this.

ROMANTIK HOTEL HOF ZUR LINDE

Meetings in the countryside along the river Werse

The success of a conference depends not least on whether the participants feel comfortable and cared for.

As an alternative to the typical conference hotels, we offer very individual rooms with a feel-good character. The course of the river Werse is also often used as a conference venue, where a conference or meeting often takes on a whole new dynamic in the open air. Naturally, catering also plays a special

role here: lunch and dinner are offered as menus and served at the table in one of our cosy restaurant rooms or, in summer, on the terrace.

We are also happy to organise special activities in our park: raft building, archery, curling, canoeing or a bicycle tour to the city centre of Münster, which is only 20 minutes away.

An aerial photograph of a modern architectural complex at dusk. The building features a mix of dark and light-colored facades with large glass windows, some of which are illuminated from within. A prominent feature is a long, curved outdoor terrace with numerous tables and chairs, some covered by white awnings. The terrace is bordered by a low wall and has a paved area. In the background, other buildings and a clear evening sky are visible.

Event Locations

How about a meeting in the elephant house of the Allwetterzoo Münster? Or in the Pferdemuseum (horse museum) there? Have you ever had a meeting in a former British garrison church? A medieval Westphalian estate is another alternative, of course. Or a cool club in an old factory hall? And that is by no means all of the ideas and suggestion. Find out for yourself, we will be happy to advise you!

ALLWETTERZOO MÜNSTER

Have a Great Evening at the Allwetterzoo Münster!

“Experience animals close up” is the motto of the Allwetterzoo! And this also applies to you if you come to us to end your conference. We will be happy to guide you through the zoo in the evening, past lions, tigers and elephants. Listen to the fascinating noises and then, after the guided tour, enjoy a picnic or even a candlelight dinner with elephants, fish or the animals of Africa. Would you like to just stretch your legs in the zoo or just eat a snack? No problem, talk to us, we will be happy to advise you and put together an individual programme for you in our surroundings.

Our tip: plan your accompanying programme or even your complete conference with us at the zoo. Experience our animals “up close”, e.g. if you feed elephants and parrots, accompany the penguins on their stroll or stand “eye to eye” with tigers, lions and gorillas.

HISTORICAL TOWN HALL

Münster's Landmark in the Heart of the City

The Historical Rathaus (Town Hall) at Prinzipalmarkt is from the middle of the 14th century and, with its high gable, has no equal in Germany. History has been written here. In 1648, the Spanish-Dutch Peace Treaty – part of the Peace of Westphalia – was confirmed in the Peace Hall. After being largely destroyed in the Second World War, the characteristic gabled building with its arches, was faithfully reconstructed in the 1950's, financed above all by the donations in kind and money of merchants and citi-

zens and through the town hall lotteries. The Rathaus (Town Hall) and the adjacent Stadtweinhaus (City Wine House) are now used for cultural and prestigious occasions and for official receptions. The meetings of the political councils also take place here. The largest room in the Town Hall – the ballroom – and the adjacent armoury can be provided with various types of seating. Furthermore, small meeting rooms are to be found in the Stadtweinhaus. These rooms have fixed block-formation seating.

MÜHLENHOF AM AASEE

Culture & History next to Lake Aa

Situated on the bank of Lake Aa, the Mühlenhof am Aasee comprises about 30 large and small half-timbered buildings from the 17th to 19th century. In 1961, the open-air-museum was opened with the construction of an Emsland post mill from the 18th century and has been a popular destination ever since.

Lots of congress organisers plan the associated evening events or the conference itself in this idyllic Westphalian setting. International groups are also delighted

by the flair and are able to experience the history of Münsterland up close. The Mühlenhof am Aasee offers the perfect setting for your event with its rustic Westphalian buffet or a buffet of your choice.

The team of the Mühlenhof is looking forward to welcoming you!

Westphalian, modern, tasty!

Münster's gastronomy is like the city itself – full of interesting contrasts: here rustic, there modern, Westphalian grassroots with international flair, conscious of traditions and, at the same time, adventurous. Connoisseurs will find the right restaurant for any taste here – from “simply delicious” to good-and-solid Westphalian to Michelin stars.

Accompanying Programmes

Sometimes it takes a good frame to really bring out the content of a picture. Even conventions need more than an atmosphere that is focussed exclusively upon work. All the trappings must be right as well. And you really do not have to worry about that in Münster. Relaxing, stimulating, or exciting, culinary, historically informative, steeped in culture, or sportingly active – we can offer you a colourful range of suggestions for a suitable programme to accompany your conference.

LEEZODROM

The Bicycle Time Travel Experience at the Leezodrom in Münster

Münster is considered Germany's bicycle capital. But why is that? At the new Leezodrom on Syndikatplatz, just a stone's throw from the historic city hall, visitors learn why the "Leezen" (i.e., bicycles) play a major role in making the people of Münster happy. It begins with the film "Leezenliebe," in which several residents explain why cycling in Münster makes them happy. This is followed by a small exhibition on the history of the bicycle. The Rentrup family is also featured in the exhibition. They have lived in Münster since 1895 – and have experienced various phases of the city's development. And it is precisely these five family members who, in the concluding "Virtual Reality" segment, take guests on a ride through the city on a stationary bike while wearing VR goggles. That is, with Anton Rentrup in 1895, with Toni

in 1925, with Gertrud in 1945, and so on. A fantastic experience that lasts exactly one hour in total.

Special Features:

- Accessible entry (also wheelchair-friendly)
- Participation possible even with physical limitations
- 15 stationary bikes and three standard seating positions
- Upon request: a personalized presentation of the Leezodrom's history and the exhibition by the German-speaking management
- Photo opportunity on the penny-farthing
- Souvenir shop

TECHNOLOGY KONFERENZ DIGITAL

Your Event is at the Forefront – Never the Technology

In over 35 years, we have been able to gather lots of experience in carrying out events. Whether conferences, presentations, galas or concerts – with our modern digital technology, we have solved all public address system problems to date.

Good speech intelligibility is an absolute "must". Every conference room

has varying acoustic conditions. For this reason, we develop individual concepts. Clear projectors, TV monitors in various sizes and adapted projection screens are also part of our equipment. The professional processing of graphics also falls under our remit.
